Prompt Engineering
AI-Assisted Development

CONCEPTS

Full Stack Development
Data Analysis & Visualization
Machine Learning • LLMs
Relational DBMS
Windows & Network Admin

SUMMARY

Software Developer and Data Analyst with a B.S. in Computer Science, a Data Science Certificate, and an M.S. in Data Analytics in progress (expected Aug 2026). Skilled in full-stack development, SQL, data visualization, and IT infrastructure support. Proven ability to deliver analytical tools and technical solutions in fast-paced professional environments.

EXPERIENCE

Technology Support Specialist

2026 – Present

Bentonville Schools • Bentonville, AR

- Provide hardware, software & network support for staff and students across district facilities
- Manage Windows workstations: user accounts, file sharing, and network configuration
- Troubleshoot connectivity issues using knowledge of networking protocols and port configurations

Work Study Student

2024 – 2025

First Electric Cooperative • Jacksonville, AR

- Developed optimized SQL queries and assisted in migrating data pipelines for enterprise systems
- Delivered BI insights via Superset, Metabase, and Zeppelin dashboards for operational teams

PROJECTS

Org Chart App

First Electric Cooperative • D3.js • React • PostgreSQL

- Interactive hierarchy viewer with expandable nodes and binary image storage in PostgreSQL

Tableau Sales Dashboard

Eastern University • Tableau Desktop

- Regional sales data story with calculated fields, parameters, and advanced visualizations

Student Account Sharing Detection

Bentonville Schools • SQL • Metabase

- Queried login database to identify students sharing accounts to evade GoGuardian monitoring during class
- Built Metabase dashboard surfacing anomalous concurrent session patterns for staff review and intervention

Portfolio Website

mewagers.github.io • React • Chakra UI • GitHub Pages

- Designed and built a personal portfolio emphasizing interface quality, data perspective, and end-to-end execution
- Showcases projects spanning full-stack development, data analytics, and interactive visualizations
